Description:

The budgetary ceiling for this contract shall be Two Million Two Hundred Fifty Thousand dollars (\$2,250,000.00) over the one (1) year term of the contract.

The quantities shown on the Bid Price Proposal are approximate and only represent estimated planned requirements based on historical or specific project needs. The Department does not guarantee any maximum or minimum quantity, any range of quantities, or the exact quantities shown for each bid item. The Department's estimated quantities and the Contractor's bid price will be used to calculate a total bid amount. This total bid amount will then be used to determine the low bidder; however, actual payment under the awarded contract will be based on actual quantities completed. For this Contract in which specific sites are not identified at the time of letting, the Engineer will issue a Work Document. Work Documents will identify the location, description, amount of work to be accomplished, and the number of calendar days to complete the work.

This Contract does have a renewable option. The Contract may be renewed for a period that may not exceed 3 years or the term of the original Contract, whichever period is longer. The renewal will be subject to the same bid prices, associated quantities and other terms and conditions set forth in the original Contract and supplemental agreement(s) determined by the Engineer to continue into the renewal period. Renewals will be made at the sole discretion and option of the Department and must be agreed to in writing, by both parties. Renewal is contingent upon the availability of funds and the satisfactory performance of the Contractor, as determined by the Department.

The improvements under this contract consist of upgrading existing lighting, and proposing lighting retrofits and other incidental construction districtwide.
